To Whom It May Concern:

Please do not force all insurance companies to cover "contraceptives" and sterilization procedures with no co-pay to patients.

At a minimum the conscience protections for any organizations that provide individual and group insurance and have moral or religious objections should be expanded and upheld.

I strongly oppose the government forcing free insurance coverage on Americans especially for drugs and devices that I oppose because some of these can cause an abortion (such as ella and Plan B).

Please protect the conscience rights of insurers, providers and people like me who object to being forced by the federal government to offer or subsidize contraceptives and sterilization services, especially when some of these drugs can take the life of early unborn children.

Remove contraceptives and sterilizations from the list of mandatory preventive services.

Sincerely,
Heidi Wassef
